BOOK OF THE WORLD

BOOK OF THE WORLD

The Lands, Legends & Lore of Pavel

"In the heart of a realm where ancient forests whisper forgotten secrets, there lies Pavel — a humble settlement of five thousand souls, united by one truth: there is no problem that cannot be solved with good company and a cold mug of ale."

A Guide for Heroes & Adventurers

THE WORLD MAP

The Lands Surrounding Pavel

Pavel Town sits at the heart of a vast realm. Hidden in the *Misty Forest* wander the Nomads of the Ninja and Elven.

THE CARDINAL LANDS

☁️ NORTHEAST — LOST DRAGON TOWN

A floating citadel beyond the clouds where the last sky-born dragons dwell. Few mortals have visited and returned unchanged. The dragons are not hostile — merely aloof, though they have been known to descend upon Pavel when the mead is particularly fine.

⚔️ WEST — THE ORK FORTRESS

An imposing stronghold of stone and iron. Once a symbol of endless conflict, the fortress has softened in recent years. Ork war cries have been replaced with drinking songs, and their raids on Pavel are now peaceful (if boisterous) tavern visits.

🧘 SOUTHEAST — MONK MONASTERIES

Perched on serene hilltops, these ancient monasteries offer peace and enlightenment. The monks have discovered that enlightenment tastes remarkably like honey mead, and frequently make pilgrimages to Pavel's tavern for "spiritual research."

⚒️ SOUTHWEST — DWARVISH MOUNTAINS

Deep within the misty mountains, master craftsmen forge legendary weapons and brew legendary ales. The dwarves emerge occasionally, drawn by the promise of competitions, bar fights, and proving that dwarven brew is superior to anything surface-dwellers can produce.

⚠️ THE SWAMPS

Between Pavel and safety lie the *Swamps* — where trolls lurk, emerging to raid the village. Many heroes have ventured in, but few return. And those who do speak in whispers of what dwells in the deepest shadows.

"The swamp does not forgive. The swamp does not forget. The swamp just... swallows."

PAVEL TOWN

The Town of Beer and Fellowship

Pavel is no grand city — it boasts no towering spires or marble halls. What it has is something far more valuable: *the finest tavern in all the realms*, a king who'd rather buy you a drink than wage a war, and a community bound together by loyalty, laughter, and a shared understanding that life is too short to drink bad ale.

The town sits at a crossroads of every major path in the realm. This makes it a natural gathering point for adventurers, outcasts, merchants, and anyone looking for a warm fire, a cold drink, and a story worth telling.

NOTABLE CITIZENS OF PAVEL

KING ANTONY — THE PEACEFUL KING

While neighboring monarchs concern themselves with conquest, Antony has but two ambitions: keeping his village peaceful and his tankard full. You'll find him at the tavern's corner table, buying rounds for travelers. *"A happy village is a peaceful village,"* he declares, raising his seventh mug of the evening.

OLD NICK THE GEEZER — KEEPER OF TALES

Every night, Old Nick takes his seat by the hearth. With a voice weathered by a hundred winters, he weaves tales of when forests were deeper and monsters bolder. Some say he's simply too stubborn to let death interrupt a good story. Nobody has ever successfully escaped one of his tales before it ends — and none have ever ended.

PANCHONCO & YUUMI — THE ETERNAL PATRON

Propped against the bar with his cat Yuumi perched on his shoulder, Panchonco haunts the pub day and night. Yuumi seems the only creature who truly understands his slurred philosophy. Some say he's been drinking since before King Antony was born. Others say he IS the tavern.

THE VISITORS & THE THREAT

🌍 THOSE WHO COME TO PAVEL

Pavel's fame has spread across the realm. *Dragons* descend from Lost Dragon Town, their fiery breath dimmed by curiosity. *Orks* march from their Fortress, war cries replaced with drinking songs. *Monks* find enlightenment tastes like honey mead. Even *Dwarves* emerge from their misty mountains, grudgingly admitting that surface ale "isn't terrible."

Heroes of every kind are drawn here — assassins seeking redemption, paladins seeking purpose, witches seeking ingredients, and zombies seeking... well, love, apparently.

⚠️ THE EVER-PRESENT DANGER

THE SWAMP TROLLS

In the Swamps lurk trolls — brutal creatures who strike without warning. Their raids are swift and merciless. Many have ventured into those marshes, but few return, and those who do speak in whispers of what dwells in the deepest shadows. It is because of this threat that King Antony has announced the Grand Competition — a series of Missions to identify the greatest heroes who can protect Pavel.

🏆 THE GRAND COMPETITION

And so it begins. King Antony has decreed that the heroes who gather at his tavern must prove their worth through trials of Power, Speed, Brain, Charisma, and Willpower. Only the one who claims the most *Glory* shall earn the title of Pavel's Champion.

"Every hero has a story. Every story needs a tavern. Welcome to Pavel."

THE HEROES

Twenty legendary heroes gather at Pavel's tavern. Each carries unique abilities and a secret *Soul Affinity* — an elemental bond that grants them power over certain challenges. The ten Soul Types are:

🌑 Dark ⚙️ Tech 🪨 Stone 👤 Crowd ✨ Magic 🌫️ Shadow ☁️ Sky 🍺 Pub 😶 Silent 💀 Undead

When a hero's Soul matches a mission's affinity, they receive a +3 bonus — a powerful advantage that can turn the tide of any challenge.

BOOK OF GAME RULES

BOOK OF RULES

The Official Guide to Missions in Pavel

"Twenty legendary heroes gather at Pavel's tavern, each with unique abilities and soul affinities. King Antony has announced a grand competition — a series of Missions where heroes prove their worth. Only one can claim the throne of Glory!"

For 2–10 Players

GAME SETUP & OBJECTIVE

SETUP

1. Choose the number of players (2–10 heroes)
2. Each player enters their name and receives a random hero
3. Set the Quest Length (number of Rounds)
4. The game begins with Player 1 as the first Reader

OBJECTIVE

Accumulate the highest *Glory* score by completing challenges. The hero with the most Glory when all rounds are complete wins!

TIEBREAKERS

1st: Most remaining total stat points. 2nd: Most remaining Meditations.

HERO STATS

Each hero has 5 stats: POW (Power), SPD (Speed), BRN (Brain), CHA (Charisma), WIL (Willpower).

IMPORTANT

Stats are SPENT to complete challenges. They do NOT regenerate automatically! Only the Alchemist Shop and certain abilities restore stats.

STAT CHIPS (LIVE PLAY)

For live play, use 5 colored chips (like poker) to track your stats: Red=POW, Blue=SPD, Purple=BRN, Yellow=CHA, Green=WIL. Spend points = return chips!

ROUNDS & STAGES

- The game is divided into Rounds
- One Stage = One mission card drawn and resolved
- Each player becomes Reader once per Round (rotating clockwise)
- A Round ends when the original first Reader becomes Reader again
- Example: 4 players = 4 stages per round

THE READER

Each stage has a Reader who:

- Draws and reads the mission card aloud
- Rolls the Fate Dice to determine difficulty
- Knows the secret target number (others do NOT!)
- Does NOT participate in challenges during their turn
- CHN be targeted by hero abilities

CHALLENGE RESOLUTION

FATE DICE & DIFFICULTY

When the Reader rolls the Fate Dice:

- Roll 1–3 = *EASY* — Lower target, worth 1 Glory
- Roll 4–6 = *HARD* — Higher target, worth 2 Glory
- Only the Reader sees the exact target — challengers must guess!

YOUR THREE OPTIONS

Starting from the player to the Reader's left (clockwise), each Challenger chooses:

1. ATTEMPT THE CHALLENGE

Choose how many stat points to spend (using the required stat).
Your total = Points spent + Affinity bonus (if applicable).

WIN (meet or exceed target): Gain Glory (1 Easy / 2 Hard), get back +2 of your spent points. Stage ends.
FAIL (below target): Lose ALL spent points. Challenge passes to next player.

 **SALVATION DICE**: On failure, you may roll a dice (+1 to +6) added to your total. If you now meet the target, you win!

2. MEDITATE (PASS)

Skip the challenge without spending points.
You have exactly 3 Meditations for the entire game.
Meditations do NOT regenerate (except +1 at Alchemist Shop).
If ALL players meditate or fail, the mission is discarded — no one wins.

3. CHALLENGE A FRIEND

Challenge another player (not the Reader) to a duel.
The Initiator gets a +3 Courage Bonus automatically.
Both players secretly invest points, then reveal simultaneously.

Both WIN: Both gain Glory.
One WINS: Winner gains +1 bonus Glory on top.
Both FAIL: No Glory awarded to either.

After the duel, a new card is drawn — the two duelists sit out.

GROUP MISSIONS & AFFINITY

🧡 GROUP MISSIONS

Special missions marked with 🧡 require teamwork from *ALL* heroes:

- Reader draws the card and rolls difficulty (does not contribute)
- Each non-Reader player votes YES (participate) or NO (sit out)
- Voting order is clockwise from the Reader
- YES voters contribute points; NO voters contribute nothing
- All contributions are combined (including affinity bonuses)

GROUP MISSION RESULTS

SUCCESS: All YES voters gain Glory (+2 Easy / +4 Hard) and it counts as a WIN for abilities.

FAILURE: You can 🎲 Gamble (dice adds +1 to +6 to total) for a last chance! If gamble fails too, all YES voters lose -3 to *ALL* five stats.

NO voters: No reward, no penalty. Does NOT affect ability streaks.

Note: Group missions require 3+ players and are disabled in 2-player games.

✨ SOUL-TYPE AFFINITY

Each hero has a secret *Soul-Type* — an elemental bond:

🌑 Dark ⚙️ Tech 🪨 Stone 👥 Crowd ✨ Magic 🌫️ Shadow ☁️ Sky 🍺 Pub
😬 Silent 💀 Undead

- Each challenge card has an Affinity tag
- If your Soul-Type matches: +3 automatic bonus
- Applies to *ALL* challenge types (regular, friend, group)
- Soul-Types are secret — don't reveal yours!

🏪 THE ALCHEMIST SHOP

Periodically, the mysterious Alchemist appears:

- Each player receives 10 Soul Points to distribute
- Spend points to restore any stat (max +5 per stat)
- You also regain +1 Meditation
- Some hero abilities recharge at the shop

SHOP TIMING (P = NUMBER OF PLAYERS)

1st Shop: Round $P + 3$ | 2nd Shop: 1st + $(P + 4)$ | 3rd Shop: 2nd + $(P + 5)$

Example (4 players): Rounds 7, 15, 24, 34...

STRATEGY TIPS

RESOURCE MANAGEMENT

Stats don't regenerate! Plan for the long game and don't overcommit early. Know when the next shop appears.

KNOW YOUR AFFINITY

Identify which challenges match your Soul-Type for the +3 bonus. This advantage can make or break a hard challenge.

SAVE MEDITATIONS

Don't waste them on easy challenges — save for when stats are critically low.

CHALLENGE A FRIEND WISELY

The +3 Courage Bonus makes initiating advantageous. Use it when you're confident in your stat pool.

GROUP MISSION RISK

Failing costs -3 to ALL stats! Only vote YES if the team can make it. Voting NO is sometimes the smart play.

WATCH OPPONENTS

Track who has used their abilities and meditations. Knowledge of your rivals is itself a weapon.

"Fortune favors the bold — but wisdom favors the prepared."
